## Experience

AcroTech, Islamabad

(2023-Present)

📍 Remote

- Created various websites frontend as per client's requests.
- Addressed complex issues with real-time prioritization using React JS capabilities.
- Coded the user experience that fetched, parsed, and formatted analytic data, and relayed it into React components.
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3, which improved user satisfaction by 80%

Fiverr

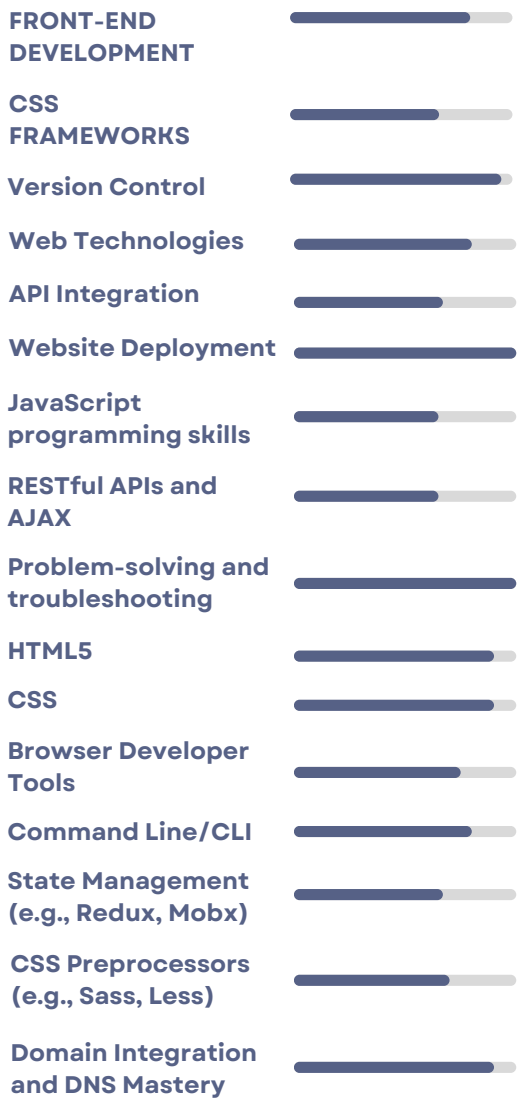

(2020-Present)

📍 Remote

Work Experience Includes some of my recent notable projects (can be found using portfolio link.:

- **Jotter's Pad:** Transformed a premade PHP template using Laravel and MySQL into a unique, engaging platform. Also, deployed on Hostinger.
- **Textbotonline:** Designed and developed a comprehensive React-based text analyzing web application with dozens of features. Also, deployed on Netlify.
- **Quetta Prayer Timings:** Integrated React JS and AlAdhan API to provide timely prayer updates based on International University guidelines and Hanafi Madhab. Also, deployed on Netlify.
- **React Redux Portfolio Website:** Highly customized and deployed this React JS portfolio template on Netlify. Customized for professionalism and functionality.
- **Nuturafit:** I skillfully integrated a Shopify store with a Hostinger-served domain, deepening my DNS understanding and enhancing web solution proficiency.
- **x-coin-network:** Revamped website visuals, adjusted content, and added engaging elements per client's vision. Deployed on Netlify for enhanced user experience.
- **Action-type:** Transformed Google Forms into a React JS app, employing cutting-edge react-router capabilities for seamless page navigation.
- **Youngstarslabs:** Elevated React JS educational site with Hero Image Slider, multimedia, Vercel deployment.
- **Shayan Faiq - WordPress Portfolio Website:** Built a WordPress website using Elementor plug-in and the Astra template.

# Skills

# Responsibilities & Achievements

- Collaborated with clients globally, delivering high-quality front-end solutions and achieving outstanding user experiences.
- Utilized React JS, Node JS, Express JS, and Next JS to develop dynamic and interactive web applications.
- Employed front-end frameworks such as Bootstrap and Material UI to create responsive and visually appealing interfaces.
- Successfully deployed websites on various hosting services including GoDaddy (cPanel), Netlify, and Hostinger (cPanel).
- Managed version control using Git and GitHub to ensure efficient collaboration and codebase management.
- Contributed to project management on Jira, facilitating streamlined workflows and efficient task tracking.
- Created custom websites with HTML, CSS, and JavaScript, showcasing a mastery of core web development technologies.
- Integrated various APIs to fetch and display data, enhancing website functionality and user engagement.
