Experience

AcroTech, Islamabad

(2023-2023)

📍 Remote - Full Time

- Developed complex frontend web pages for HR Management System.
- Addressed complex issues with real-time prioritization using React JS capabilities.
- Coded the user experience that fetched, parsed, and formatted analytic data, and relayed it into React components.
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3, which improved user satisfaction by 80%

VisualSoft Global LLP, Islamabad

(2023-Present)

📍 Remote - Part Time

- Streamlined live stream integration, boosting user engagement with real-time chat.
- Leveraging my React JS expertise, through seamless Agora API integration, elevating the website's performance and reliability.
- My efficient services and diverse technology experience reduced development time, allowing us to swiftly implement new features and stay competitive.
- Collaborating with the team and optimizing code, I improved the website's overall functionality, enhancing the user experience.

Fiverr

(2020-Present)

📍 Remote

The following are some of my notable projects that can be seen by accessing my portfolio link:

- **Jotter's Pad:** Transformed a premade PHP template using Laravel and MySQL into a unique, engaging platform. Also, deployed on Hostinger.
- **Textbotonline:** Designed and developed a comprehensive React-based text-analyzing web application with dozens of features. Also, deployed on Netlify.
- **Quetta Prayer Timings:** Integrated React JS and AlAdhan API to provide timely prayer updates based on International University guidelines and Hanafi Madhab. Also, deployed on Netlify.
- **React Redux Portfolio Website:** Highly customized and deployed this React JS portfolio template on Netlify and customized for professionalism and functionality.
- **x-coin-network:** Revamped website visuals, adjusted content, and added engaging elements per the client's vision. Deployed on Netlify for enhanced user experience.
