

Sharjeel Faiq

Full Stack Software Engineer

Experienced Full Stack Web Developer with over three years in MERN and PERN stacks. Proficient in frontend development and React JS, advanced JavaScript, and backend technologies like Node.js and NestJS. Skilled in creating REST-based microservices with SQL and NoSQL databases and deploying web applications. I have a proven track record of delivering impactful solutions for diverse clients, enhancing sales and satisfaction. Additionally, I excel in building live-streaming apps. Eager to leverage my skills to drive innovation and success in a dynamic full-stack development role.

EXPERIENCE

1. TechArch (2.5 Years)

Full-Time Frontend and React JS Developer

- Leveraged React and Redux to develop a single-page application with dynamic content and real-time updates
- Developed an interactive dashboard using React that allowed users to visualize data in real-time
- Used React and CSS to optimize the performance of the website, resulting in a 30% reduction in loading time
- Developed and implemented a system for tracking and reporting employee attendance and time off, resulting in a 50% decrease in time off abuse

2. VisualSoft Global LLP (3 Months)

Contractual React JS and WordPress Developer

- Utilized React and Agora API to develop a single-page live-streaming application with real-time chat
- Developed WordPress website for VisualSoft Global LLP with WPBakery Builder

3. DevGate Consultancy (5 Months – Present)

Full-Time Full-Stack Software Engineer

- Built full-stack Easypaisa Committee Mini-app in PERN
- Contributed to the International China Project by developing REST-based microservices using SQL and NoSQL databases.
- Added features in in-house projects based on MERN
- As a full-stack developer, I've worked on projects using NestJS, Node.js, Angular, and React
