## PROFESSIONAL EXPERIENCE

### Full-Stack Software Engineer

DevGate Consultancy - Islamabad (Onsite)  
Mar 2024 – Present

- Built full-stack Easypaisa Committee Mini-app in PERN.
- Contributed to the International China Project by developing REST-based microservices using SQL and NoSQL databases.
- Developed robust, scalable, and modular node modules.
- Collaborated with fellow engineers to evaluate software interfaces by assisting them in challenging tasks.

### React JS And WordPress Developer

VisualSoft Global LLP - Islamabad (Remote)  
Oct 2023 – Dec 2023

- Created a live-streaming application with real-time chat with React and Agora API.
- Developed WordPress website for VisualSoft Global LLP with WPBakery Builder.
- Consistently met project deadlines by effectively managing time and prioritizing tasks according to importance.

### Frontend and React JS Developer

TechArch - Pakistan (Remote)  
Mar 2020 – Jan 2023

- Developed single-page applications by leveraging React and Redux with dynamic content and real-time updates.
- Developed an interactive dashboard using React and Tailwind that allowed users to visualize real-time data.
- Developed a system for tracking employee attendance and time off, reducing time off abuse by 50%.
