SHARJEEL FAIQ

FRONTEND & REACT JS DEVELOPER

About Me

I'm Sharjeel Faiq, a Frontend React JS Developer with 4+ years of experience in coding. Skilled in front-end frameworks (Bootstrap, Material UI, Tailwind CSS), hosting services, version control (Git, Github), and project management (Jira, & Trello). My forte includes seamless API integration for dynamic global web applications. I've delighted multiple clients on Fiverr and locally, delivering high-quality results. Proficient in JavaScript and its frameworks (React JS, & Next JS), I create dynamic applications. Let's embark on this journey together, where innovation meets passion.

Pre-Engineering **(2015 - 2018)**

APSACS
Matriculation **(2011 - 2015)**

Experience

AcroTech, Islamabad
(2023-2023)   📍 Remote - Full Time

- Developed complex frontend web pages for HR Management System.
- Addressed complex issues with real-time prioritization using React JS capabilities.
- Coded the user experience that fetched, parsed, and formatted analytic data, and relayed it into React components.
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3, which improved user satisfaction by 80%

VisualSoft Global LLP, Islamabad
(2023-Present)   📍 Remote - Part Time

- Streamlined live stream integration, boosting user engagement with real-time chat.
- Leveraging my React JS expertise, through seamless Agora API integration, elevating the website's performance and reliability.
- My efficient services and diverse technology experience reduced development time, allowing us to swiftly implement new features and stay competitive.
- Collaborating with the team and optimizing code, I improved the website's overall functionality, enhancing the user experience.

Fiverr
(2020-Present)   📍 Remote

The following are some of my notable projects that can be seen by accessing my porfolio link:

- **Jotter's Pad:** Transformed a premade PHP template using Laravel and MySQL into a unique, engaging platform. Also, deployed on Hostinger.
- **Textbotonline:** Designed and developed a comprehensive React-based text-analyzing web application with dozens of features. Also, deployed on Netlify.
- **Quetta Prayer Timings:** Integrated React JS and AlAdhan API to provide timely prayer updates based on International University guidelines and Hanafi Madhab. Also, deployed on Netlify.
- **React Redux Portfolio Website:** Highly customized and deployed this React JS portfolio template on Netlify and customized for professionalism and functionality.
- **x-coin-network:** Revamped website visuals, adjusted content, and added engaging elements per the client's vision. Deployed on Netlify for enhanced user experience.

Fiverr
(2020-Present)   **⚲ Remote**

The following are some of my notable projects that
can be seen by accessing my porfolio link:

- **Action-type:** Transformed Google Forms into a React JS app, employing cutting-edge react-router capabilities for seamless page navigation.
- **Youngstarslabs:** Elevated React JS educational site with Hero Image Slider, multimedia, and Vercel deployment.
- **WordPress Portfolio Website:** Built a WordPress website using the Elementor plug-in and the Astra template.

Responsibilities & Achievements

- Collaborated with clients globally, delivering high-quality front-end solutions and achieving outstanding user experiences.
- Utilized React JS, Node JS, Express JS, and Next JS to develop dynamic and interactive web applications.
- Employed front-end frameworks such as Bootstrap and Material UI to create responsive and visually appealing interfaces.
- Successfully deployed websites on various hosting services including GoDaddy (cPanel), Netlify, and Hostinger (cPanel).
- Managed version control using Git and GitHub to ensure efficient collaboration and codebase management.
- Contributed to project management on Jira, facilitating streamlined workflows and efficient task tracking.
- Created custom websites with HTML, CSS, and JavaScript, showcasing a mastery of core web development technologies.
- Integrated various APIs to fetch and display data, enhancing website functionality and user engagement.
