Address: Gulzar e Quaid, Rawalpindi
WhatsApp: +923368856575
Email: sharjeelfaiq816@gmail.com

PROFILE

Full Stack Web Developer with 5 years of experience. I excel in building dynamic applications using React. Angular, Node.js, and Nest.js. I'm proficient in REST APIs, and SQL/NoSQL databases, with experience in GraphQL and microservices. My track record includes delivering solutions that enhance sales and customer satisfaction.

PROFESSIONAL EXPERIENCE

Stellar System (Oct 2024 - *present* | Onsite)
Full-Stack Software Engineer **(MERN, DevOps)**

● Developed a high-performance MERN application for real-time visualization and management of sensor data from networking towers.
● Optimized data processing and query performance using MongoDB aggregation pipelines for efficient time-series data analysis.

DevGate Consultancy (Mar 2023 - Sep 2024 | Onsite)
Full-Stack Software Engineer **(MERN, PERN, MEAN)**

● Built a full-stack Easypaisa Committee Mini-app using the PERN stack.
● Contributed to the International China Project by developing RESTful microservices with SQL, Node.js (TypeScript), and NoSQL databases.
● Designed and implemented scalable, API-centric infrastructure for Zoho CRM, adhering to industry best practices.

VisualSoft Global LLP (Jan 2020 - Dec 2022 | Remote)
React JS and WordPress Developer

● Developed a live-streaming app with real-time chat functionality using React and Agora API.
● Built and customized a WordPress site for VisualSoft Global LLP using WPBakery Builder.
● Ensured on-time delivery by efficiently managing time and project priorities.

EDUCATION

● **University** (2018 - 2023)**:** BS Math from Balochistan University of IT, Engineering & Management Sciences
● **College** (2015 - 2018)**:** Pre-Engineering from Punjab College Muzaffarabad
● **School** (2013 - 2015)**:** APSACS Muzaffarabad
